

Troops Are Held to Repel Attack

AUSTRIANS HOLD OUT AS RUSSIAN DRIVE SLACKENS

Defenders Settle Into Strong Positions and Stubbornly Resist the Advance of the Enemy.

SLAVS SHIFT THEIR ATTACKS

Slaves Now Being Made from Northward; Effects of Drive Are Marked Upon the Austrian Offensive Against the Italians; Repulse of Slavs Claimed by Austrians.

VIENNA, June 17.—New combats have started on the entire Volhynian front, it was officially announced. Several Russian attempts to cross the Stryk failed, the Slavs suffering heavily.

LONDON, June 17.—The Austrians have settled into strong new positions and are stubbornly resisting the Russian advance, the conclusion gained from the fact that the Russian official report does not claim the tremendous daily gains as on the first few days of the drive. The capture of Czernowitza has not been officially confirmed yet, though it unofficially was reported from several sources.

The Austrians are holding the ground from Tarnopol to Brody. Petrograd says this is due to the fact that the Russian attack has shifted to the northward. The drive already has lessened markedly the Austrian pressure against the Italians.

An Austrian statement says: South of the Danube we repulsed the enemy cavalry. West of Vukovar, no Russians were attacking. We took 400 prisoners. There is nothing to report from Tarnopol. The army claims the repulse of several Italian attacks and successful Austrian attacks at Tarkatop and Hindmost.

PARIS, June 17.—German flyers bombarded Dunkirk, Pont A Mousson and Barleuc last night, killing four and wounding 15, says a communiqué. French aviators bombarded Longuyon, Montmedy and Oudin.

Violent artillery attacks are continuing on both banks of the meuse. A duel of big guns in the Avocourt sector is particularly heavy. Deadman's Hill last night was an inferno of shell-fire. A German grenade attack at Avocourt was easily repulsed. In the Vosges, a French detachment penetrated two German lines, killing many prisoners. The attackers returned without suffering losses. The communiqué denies that the Germans drove the French from freshly won trenches on the southern slope of Deadman's Hill. The French insist that they are still holding their gains.

The sound of the heavy guns in the battle of Verdun was undoubtedly the loudest man-made noise that the world has ever known. It was heard at Ziegenhain, 188 miles away, even indoors with the windows shut.

Youth Dies From Wound Inflicted Through Accident

VIC EHRHART SUCUMBS YESTERDAY AFTERNOON FOLLOWING SHOOTING.

Vic Ehrhart, the young man who accidentally shot himself through the body with a revolver Thursday afternoon, succumbed to his wound yesterday afternoon shortly before 3 o'clock. He had lost so much blood that he had no vitality left.

Deceased was 21 years old. He is survived by his father, Grant Ehrhart, mother, twin sister and a brother. He was a nephew of Mrs. Henry J. Taylor of this city. The funeral will be held tomorrow morning at 9 o'clock at the Brown chapel.

Blockade Not to Slacken. LONDON, June 17.—As a result of the discussion of the blockade at the recent allied conference in Paris conclusions were reached which will remove many misconceptions on the part of neutrals, according to Lord Cecil, minister of war, who attended the conference as a British representative.

What these conclusions were, Lord Robert would not say, but he asserted there would be "no slackening" of the blockade and that it would work better as a result of the conference.

Will Lead Democrats Again

Woodrow Wilson, President of the United States, Who Has Been Renominated by the Democrats at St. Louis.

School Election to be Held Here Monday; 2 Candidates Up

Whether Mrs. S. A. Lowell or Dr. I. U. Temple shall be the new member of the Pendleton school board is to be determined by the voters of the city at the annual school election to be held Monday afternoon. The voting will be at the city hall and the polls open at 2 o'clock, remaining open until all have voted who wish.

Information as to the legal qualifications of voters at a school election is provided today by Deputy District Attorney R. I. Keator. It is not necessary for voters to be registered and in cases where the individual has the necessary property qualifications it is sufficient if he has but taken out his first citizenship papers.

"Legal voters for school purposes," explains Mr. Keator, "comprises any

citizen of the state, male or female, who is 21 years of age and has resided in the district 30 days immediately preceding date of election, and who has property in the district in his or her name, as shown by the last county assessment, and not assessed by the sheriff, on which he or she is liable to pay tax; provided that any person shall be deemed to have complied with the property qualification mentioned above who has stock, shares or ownership in any corporation, firm or copartnership, which has property in the district, as shown by the last county assessment, and not assessed by the sheriff, on which said corporation, firm or copartnership pays a tax, even though his or her individual name does not appear upon the tax roll."

Round-Up Performer Figures in Sensational Fight at the Contests Being Held at Union

Benny Corbett, well known Roman rider and buckaroo who has attended all Round-ups, figured in a bit of excitement at the Union Stock Show yesterday that promised for a time to result in a free-for-all melee, according to local men who were present.

In the cowboy race Corbett led the field clear around the track but on the last straightaway a boy named Herbert Doherty overtook him and was passing when Corbett reached out and grabbed the boy's horse by the bridle, holding it back. Corbett was doing it in a spirit of fun, in the opinion of the local people but the boy failed to see the joke and slashed Corbett

across the head and face with his quirt clear across the finish. Spectators rushed onto the track, officials were bawling and everybody crowding about the two. Corbett had a broad grin on his face but the boy was still mad. When he drew his quirt back again, threatening Corbett, the latter quickly took it from him, but just as he did so the boy's father felled him from behind with a club five feet long.

Corbett struggled to his feet and made for the elder man but was too groggy and went down again. At this juncture Fred Spain grabbed a scantlying and was just in the act of fighting a duel with the elder Doherty

when officials interfered and quieted down the belligerents. Corbett quickly recovered, washed his head and was as debonair as ever. "Some club," he said, picking up the scuffling with which he was dropped. "Guess I'll keep it."

Dell and Bertha Blount are winning nearly of the races at the show, according to reports. Lee Caldwell, champion buckaroo, was the hero of the show by his sensational rides on buckers.

C. B. Irwin of Irwin Bros. of Cheyenne was at the show yesterday and bought all of Spain Bros. bucking stock and also many fine riding ponies for use in the wild west show that is to be staged in New York.

Local Man Believes He Has Good Field For Industry Here

GROWTH OF FLOUR BUSINESS PREDICTED BY BLYDENSTEIN MANUFACTURER.

That he may be able to build up a very important local industry is the belief of H. G. Blydenstein, former manager of the Pendleton Roller Mills who is engaged in manufacturing a self-rising flour and a dietary flour. The names of the products are Blydenstein's Self Rising Pastry Flour and Blydenstein's Prepared Dietary Flour.

The self rising pastry flour is used for the making of pies, cakes, waffles, hot cakes and biscuits. It has already been tried out and found highly satisfactory. For campers use, the flour is a great boon as it may be used by being merely mixed with water. The pastry flour is not used in making light bread.

At the present time Mr. Blydenstein is equipped in a moderate way for the manufacture of his flour but he hopes in the future to build up an extensive business, requiring a large plant. The field is open for this business in the west as such products are not being manufactured here though there are a number of such plants in the east.

Steamer Bear is Washed High and Dry on the Shore

SIGHTSEERS WALK TO WRECK; FEDERAL INSPECTORS ARE ON THE SCENE.

EUREKA, June 17.—Sightseers walked dry shod to the wrecked steamer Bear. A heavy sea last night forced the vessel shoreward and a shoal formed around her. She is now high and dry on the beach and embedded deeply in the sand. It will require months to free her.

Federal inspectors are viewing the wreck preparatory to starting a probe Monday. Survivors have been subpoenaed to testify.

House Destroyed by Fire Starting From the Kitchen

FRAME DWELLING IN MARIE STREET IS TOTAL LOSS YESTERDAY AFTERNOON.

Fire yesterday afternoon almost totally destroyed the small house at 508 Marie street, owned by Mrs. Blanchard and occupied by Mrs. Lola Hadley. The loss was about \$1000. Mrs. Blanchard was protected fully by insurance but the Hadleys who lost nearly all of their furniture, had no insurance.

The alarm was turned in about 5:10 by telephone. Mrs. Hadley had been making and had lighted a lamp with which to heat her curling iron. She had taken to lamp into another room and when she returned to the kitchen was in flames. Probably she dropped the lighted match or else the fire started from the stove.

When the fire department arrived it was too late to do anything except to prevent the flames from spreading to other houses.

Woman is Murdered. SEATTLE, June 17.—Her throat cut by a murderer, Mrs. Blanche Coleman was found murdered in her apartment at the Christie Hotel. John Soudas, a cigarman, was arrested.

Quaker Coach Drops Entire Varsity Crew

JOE WRIGHT

POUGHKEEPSIE, N. Y., June 17.—Joe Wright, coach of the University of Pennsylvania oarsmen, performed the most drastic action of any varsity coach now in the rowing colony here. With the big race about a week off, Wright transplanted the entire varsity crew, oarsmen, coxswain and all, in to the position of first varsity and it is expected that the junior will row as the varsity in the race on June 17.

The juniors had defeated the regular varsity with such regularity that Wright came to the conclusion that it would be more representative of Penn's best armsmanship and would have a better chance of winning than the men of the regular varsity.

CIVILIANS ARM THEMSELVES ALONG BORDER; SITUATION IS ADMITTED TO BE VERY GRAVE

Several Hundred Mexican Soldiers Reinforce Garrison Across From El Paso; American Detachment Fires on Bandit Gang That Cross Line; U. S. Troops Have Built Pontoon Bridges and Have Machine Guns Trained Across the River; Washington Alarmed.

EL PASO, June 17.—Several hundred fresh Mexican soldiers arrived at Juarez today to reinforce the garrison of 3000. They are encamped 12 miles east of El Paso. With the Juarez civilians arming and General Bell holding soldiers in readiness for an emergency, the situation this afternoon was admittedly dangerous. Official advices however discounted several of the alarming reports. Obregon telegraphed Garcia a denial that Gavira had been executed as the morning papers reported. The statement that 1000 Juarez civilians had been armed also proved to be false. Only 40 Juarez residents answered at the military training camp.

SAN ANTONIO, June 17.—An American detachment fired on a band of Mexicans eight miles east of San Benito, Texas, General Parker reported this afternoon. It is unknown whether any of the bandits were killed. They scattered in the brush and recrossed the line. Delrio travelers said that 200 Mexicans crossed the line there.

The Americans are building pontoon bridges and have machine guns trained across the river.

Finston said this afternoon that he had not received direct word from Pershing regarding the report that Trevino had issued a veritable ultimatum against further movement of the punitive expedition. Posters distributed throughout San Antonio bear the announcement: "Volunteers wanted for immediate service on the border. Coast artillery company, Laredo."

BROWNSVILLE, June 17.—Three Mexicans were reported killed while clashing with American troops at San Benito, Texas, last night. Thirty bandits crossed the border. Two companies of infantry were rushed in automobiles and cut off the retreating bandits who were heading for the Rio Grande.

COLUMBUS, June 17.—Wild rumors excited the border today but the authorities this morning stated that the report that Carranza had threatened hostilities if the American troops moved in any direction except toward the border were not confirmed.

WASHINGTON, June 17.—Today's developments in the Mexican situation caused more uneasiness among administration officials than has been admitted recently. The most significant was the arrival at Laredo of Consul Hanna, stationed at Monterey. Lansing some time ago telegraphed all the consuls that they could return to America at their discretion. No reason was given for Hanna's return. Only two other consuls are now remaining in the interior of Mexico. Dickinson at San Luis Potosi and Sullivan at Saltillo. A report of Hanna's reason for returning is anxiously awaited.

WASHINGTON, June 17.—Secretary Lansing was today considering bringing from Mexico the remainder of the American consuls in the small cities. Most of them returned several weeks ago for the border conference and have not gone back. The war department received private advices today saying that notices were posted in Chihuahua and Juarez urging the civilians to supply themselves with arms and ammunition. The department transmitted the dispatches to Wilson.

Lansing was admittedly anxious to learn whether Trevino was acting under Carranza's orders in sending a note to Pershing. The Mexican embassy branded the published text of the Trevino message as a fake. War department officials belittled Trevino's message. It is doubted if the text of it as printed in the morning papers is correct. Bell's message did not quote Pershing directly.

Bell today denied official knowledge of the alleged Carranza threat to attack Americans. A tightening of the American communication lines was reported as a precaution against Carranza attacks along the 250 mile front.

The Mexican embassy criticized "certain army officers" who circulated unfounded stories.

ENGLISH DESTROYER SINKS FOLLOWING COLLISION IN ENGLISH CHANNEL

EDEN GOES TO THE BOTTOM

LONDON, June 17.—The destroyer Eden sank in the English channel immediately following a collision, the admiralty announced. Thirty one of the crew were saved. The ship normally carried a crew of 70.

Mrs. Astor to Wed. NEW YORK, June 17.—Madeline Force Astor, the widow of John Jacob Astor who died on the Titanic will marry William K. Dick next week, according to the Brooklyn Times. Dick is part owner of the Times.

NEWS SUMMARY

General. Mexican situation has threatening outlook. Troops are held in readiness for any emergency. Austrians are holding back Russian drive in some quarters. Local. Taxpayers may vote at school election Monday. Vic Ehrhart dies from wound. Ben Corbett figures in lively affair at Union. Residence is destroyed by fire.
